The following 17 photographs were taken at the Hallenstadion in Zürich during one of Led Zeppelin's last concerts on the 29th of June in 1980.

They have never been printed before.

However, we have given the official Led Zeppelin website permission to share them with the community.

Taken with a slides film the ASA was ramped up in the developing process in order to be able to take pictures without having to use any flashlight.

We have had to scan the images, because the technique to develop photographs from slides directly, does not exist any longer. The scans, however, are of excellent quality, so that even poster size prints (70 by 100cm and larger ones) come out really beautiful. No photoshopping whatsoever.

The photographs offered here for sale have been printed by Remo Eyer Fine Art Print in Zürich on size A3 (297 by 420mm) Hahnemühle FineArt Baryta 325 gsm.

Each photograph is limited to 12 copies; numbered (I-XII), titled, signed and dated by the photographer in pencil at the bottom of the back.

In addition, three copies lettered Y, G and R of the complete series have been printed, containing the original slides (copy Y) and a memory stick with the high resolution scans of the slides (copies Y, G and R).

The lettered copies are not for sale.

Each print is CHF 100. You can order the complete series with a unique number (II-XII) for CHF 1'500.

Different sizes are available, but out of series. Postage is not included.

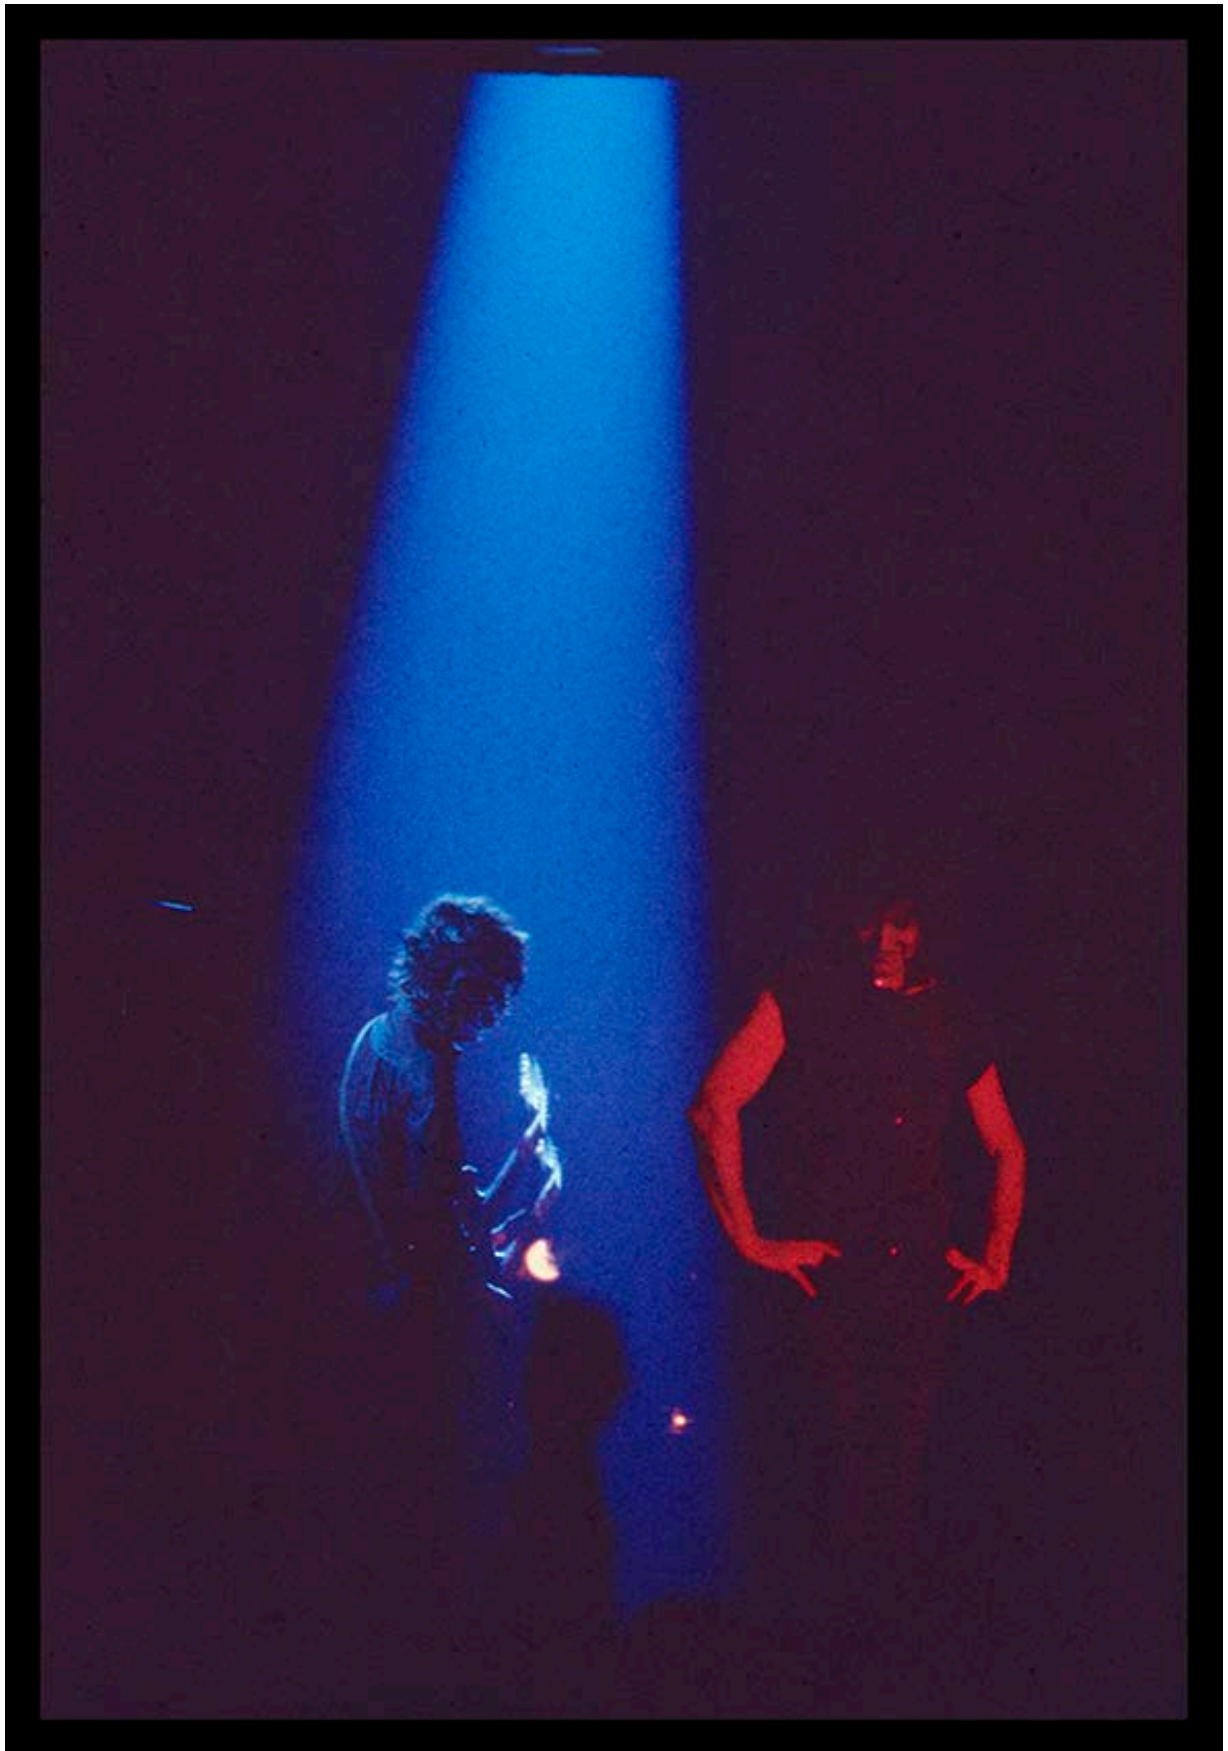

You can listen to two versions of the concert at:
