My friend “**Randy Monk**” was a most generous, kind, helpful and knowing mentor and influenced countless Swiss music collectors, who to a man mourn his passing away. He grew up at a time when records were extremely expensive and had to put his collection together on a highly limited budget. A few years ago, he sold the bulk of his collection, but kept these **179** EPs and Singles. Always eclectic and open – he collected everything worthwhile in the fields of Rock ‘n’ Roll, Beat, Blues, Folk, Psychedelic Rock, Progressive Rock, Punk and more – he chose these records because of their merit, not because of their monetary value. So you will find prices starting at CHF 1 and then some going well beyond the reasonable. But that’s Randy Monk for you.

His records and their sleeves offered here for sale are generally in at least Very Good/Very Good (7/10) condition, but usually Excellent/Excellent (8/10), i.e. they have been played and handled, but carefully so. We will gladly give details of any record on request. Records marked in **RED** have been sold, those in **GREEN** are on hold. The following abbreviations have been used:

EP – Extended Play (3 or more songs)
PS – Picture Sleeve
FS – Factory Sleeve
WS – White Sleeve
CC – Centre Piece Cut

The records have always been carefully stored: vertically (in extremely heavy and sturdy boxes) and away from the sun or any other source of heat. All the sleeves have been protected in transparent covers from the day they were bought.

We are listing the collection in alphabetical order (but disregarding “The”, so The Beatles are listed under B) and then chronologically. Some records are obvious reprints and have been marked so (RE). You will find a few samplers at the very end of the catalogue.
