October 2016 – Updated June 2024

This catalogue is divided into three sections:

- A. Vintage Slot Cars & Parts
- B. Hot Rods & Dragsters
- C. Weird Stuff

Most of these cars were custom built and in most cases beautifully so. Please note that the cars and chassis may not have been raced at all or not in a long time, which means that the tires need to be replaced and the motors and axles oiled.

We have published reels of some of these cars on Instagram at:

and on YouTube at:
